The diagram shows a 2D space with two axes, $t_1$ and $t_2$. The quadrants are divided as follows:

- Top right quadrant: $t_1 > 0$, $t_2 > 0$
- Bottom left quadrant: $t_1 < 0$, $t_2 > 0$
- Top left quadrant: $t_1 > 0$, $t_2 < 0$
- Bottom right quadrant: $t_1 < 0$, $t_2 < 0$

The origin $(0, 0)$ is marked in the center of the diagram.
